## ***The Well Test Support Service***

**ScanTech would like to confirm investment of GBP 1.7million in a state of the art workshop & offices to support continued investment in rental fleet capacity and equipment sales.**

The new facility due to open in February 2014 will allow production capacity to full fill in excess of 120 units per annum of main fleet Zone II Air Compressors, Steam Generators & Rig Cooling Booster Pumps.

In the interim period, ScanTech is doubling its production workforce to deliver:

- **40 x No. 1600cfm Zone II Compressors,**
- **8 x No. 6.2Mbtu Rig Safe Steam Generators,**
- **8 x No. 6.0Mbtu Zone II Steam Generators**
- **10 x No. 3000 GPM Zone II Booster Pumps by the end of the year.**

Production being split equally between equipment sales and increasing rental fleet capacity.

ScanTech Offshore Ltd provides equipment and services to exclusively support the world wide well testing market sector.
